What client group do you work with and what are some of the presenting problems?

We are a community drug team who provide service for those who suffer with substance misuse problems both alcohol and drugs plus we are the first dual diagnosis service in the country .

How has A Better Tomorrow supported you with your clients?

They have been a god send for a great majority of our service users and a valuable asset to our service . They are unique in that they provide not only for a recently detoxed drug free service users but some of our more complex cases with multipul issues such as substance misuse homelessness mental health and chaotic lifestyle they stabilise on substitute medication which is much needed as there is very few options for service users in this situation . They have took some of our most hard to reach service users and turned their lives around . They are reliable , dependable and honest with high level of integrity . They are saving lives and we will always use this resource as we trust in their processes.

What value does A Better Tomorrow bring to your organisation and community?

A well trusted and dependable professionally run service unique and invaluable to us .

How do feel our clients have benefitted from joining A Better Tomorrow and engaging with your organisation and other local services?

Simple Life changing , positive outcomes , Providing high level of support to those in need .
